PROFILE

Analytical and detail-oriented professional with experience in customer service, software development, bookkeeping, and public-sector IT solutions. Skilled in effectively handling sensitive and classified information, delivering high-quality service, and resolving complex technical issues efficiently. Proficient in a range of software and technologies, including Python, REST APIs, Swagger, Microsoft Azure, CI/CD pipelines, MS Excel, and Selenium, with a proven track record of adapting quickly to new environments and tasks. Experienced in supporting AI-driven and cloud-based solutions within secure environments and collaborating with cross-functional teams. Known for strong communication skills and a client-focused approach, with fluency in English, Urdu, and Hindi. Holds a valid Government of Canada Reliability Status security clearance.

PROFESSIONAL EXPERIENCE

Canadian Heritage (PCH) **Nov 2025 – Present**

IT Analyst – Software Solutions | Full-time - Hybrid

- Developed and consumed REST APIs using Swagger UI to securely extract and manage sensitive files and image assets from classified museum datasets
- Supported the implementation of AI-driven solutions for the Artifacts Canada platform, including data preparation and early-stage model training workflows
- Built and integrated backend services using Python, working closely with structured and semi-structured cultural heritage data
- Utilized Microsoft Azure services including Azure Functions, Virtual Machines, Storage Accounts, Data Lake, and Blob Storage to support scalable data processing
- Assisted in designing and maintaining CI/CD pipelines using Azure DevOps and GitHub Actions to automate deployments and testing
- Collaborated with cross-functional teams to handle secure data access, system integration, and basic SQL-based data operations

AirMatrix **Sep 2025 – Oct 2025**

Field Technician – Drone Operations | Full-time - On-site

- Operate and monitor drones in field environments, ensuring safe and efficient flight operations
- Utilize AirMatrix Libra software and radar systems to track drone flight paths, monitor performance, and log real-time operational data
- Collect, analyze, and report drone performance metrics to support research, development, and system optimizations
- Perform basic hardware maintenance and assist in radar calibration to ensure accurate signal tracking and seamless communication with drone systems

AirMatrix **Jan 2025 – Sep 2025**

Software Development Intern | Web Automation & AI | Full-time - Remote

- Designed & built a Flask web app to automate bid scraping from CanadaBuys, allowing real-time data extraction. Assisted in fundraising efforts, preparing investor presentations and materials to attract funding
- Integrated OpenAI's API to filter and categorize bids into Low, Medium, and High priority based on company-relevant AI & drone projects
- Developed a Google Sheets API integration to automatically store and update categorized bid data for internal tracking
- Implemented a Flask-based dashboard where users can start scraping and view results from a web interface
- Tech Stack: Python, Flask, Selenium, OpenAI API, Google Sheets API, Web Scraping, Automation
- Used SharePoint to support internal collaboration and share project documentation

Canada Revenue *Agency* **Jan 2023 – Sep 2023**
Taxpayer Service Agent | Full-time - Remote

- Received, reviewed, analyzed, and researched taxpayer information through internal and external resources
- Identified and resolved taxpayer accounts requiring corrective actions, including misallocated payments, compliance issues, and the issuance of tax assessments
- Responded to inquiries concerning the filing and processing of individual tax returns
- Obtained and analyzed information regarding adjustments to tax returns or instalment payments
- Completed and processed all necessary forms requested by taxpayers, made appropriate referrals, and responded to electronic service inquiries
- Handled a high volume of inbound calls, addressing taxpayer concerns with accuracy and professionalism

Khalid Hasan Professional Corporation **Feb 2019 – Feb 2022**
Bookkeeper/Associate | Part-time - Remote

- Used MS Excel to reconcile complex bank and personal transactions for clients
- Managed sensitive and confidential information with discretion and strong attention to detail
- Completed accurate and timely categorization of expenses
- Performed other administrative duties as required

Delphi Technology **Sep 2021 – Nov 2021**
Quality Assurance Analyst | Internship - Remote

- Created test cases, conducted testing, and documented and tracked test results and bugs
- Performed functional testing, integration and system testing, and compatibility testing on the application using manual testing methods
- Conducted test automation for web applications using Selenium in Java
- Implemented test cases based on user stories for testing in Quality Center
- Documented and reported bugs, errors, interoperability flaws, and other issues within proprietary software applications developed for the organization
- Created test scenarios for User Acceptance Testing (UAT)
- Demonstrated methodical, detail-oriented, and thorough approach to all assignments while adhering to compressed timeline

EDUCATION

Algonquin College **Graduated: Aug 2025**
Computer Programming Diploma

West Carleton Secondary School **2014 – 2018**
Ontario Secondary School Diploma

CERTIFICATIONS

Transport Canada **Sep 2025**
Advanced Operations Pilot Certificate

Codecademy **May 2025**
BI Dashboards with Power BI

Techno Canada **Sep 2021**
Software Quality Assurance Certificate

Artech Accelerate **Jul 2019**
Public Relations and Customer Management Program

SUMMARY OF SKILLS

Technical Skills:

- Python, JavaScript, HTML, CSS, TypeScript, C
- React, Flask, Next.js
- Node.js, Linux, MS Azure
- Git, VS Code, Eclipse, Android Studio, VMware, GitHub Actions, Azure DevOps
- MySQL, Oracle SQL Developer, Oracle Data Modeler
- WordPress, MS SharePoint (basic knowledge)
- MS Excel, MS Power BI, MS Word, MS PowerPoint, Google Sheets,
- Hardware maintenance and troubleshooting

Core Competencies:

- Results-driven and analytical thinker
- Quick learner with strong problem-solving skills
- Excellent communication skills (fluent in English, Urdu, and Hindi)
- Strong interpersonal skills and client-focused approach
- Team player with a positive attitude
- Effective time management with the ability to multitask
- Experienced in remote collaboration tools (MS Teams, Slack, Zoom)
